

The Lessor, as the controller, complies with the European Regulation 2016/679 (EU) and the current national legislation on the protection of personal data. The Lessor processes your personal data, based on the execution of the contract and/or compliance with other legal obligations and/or the fulfillment of a legal interest. The Lessor takes all appropriate technical and organizational measures to ensure the security of the personal data of the Lessee and maintains this data for a legal period of time. Access to the abovementioned data is restricted only to persons who are strictly authorized by the Lessor and committed to maintaining confidentiality.

With respect to the data collected through the gps, which is factory installed on the Vehicles, the Lessor informs the Lessee that it will process the gps data to detect the exact location of the Vehicles only in cases where it is necessary for reasons regarding the protection of the Vehicles (e.g. in case of theft). Given that the Vehicles are more prone to theft, they are equipped with the above gps application by the factory. The Lessor has a legal reason for collecting the above data, so that it can recover the Vehicle in case of theft and generally exercise its legal rights. The Lessor will not use this data in order to detect the exact location of the Lessee, since access to such data will take place only in cases of theft or loss of the Vehicle in general. The erasure of gps data takes place following the return of the Vehicle, however in the event of a safety-related incident, the material may be retained beyond that period.
